Windows 365 Today

High Level Understanding of Windows 365 today

Deploy Windows 365

It’s easy, how can we make it easier?

Connect to Windows 365

How to connect to Windows 365

Personas

How different personas effect how users connect

The future of Windows 365

How do Windows 365 for Agents affect the future of Cloud PCS

Where we have come from

https://www.wpninjas-germany.com/
#WPNinjasGermany

And today…

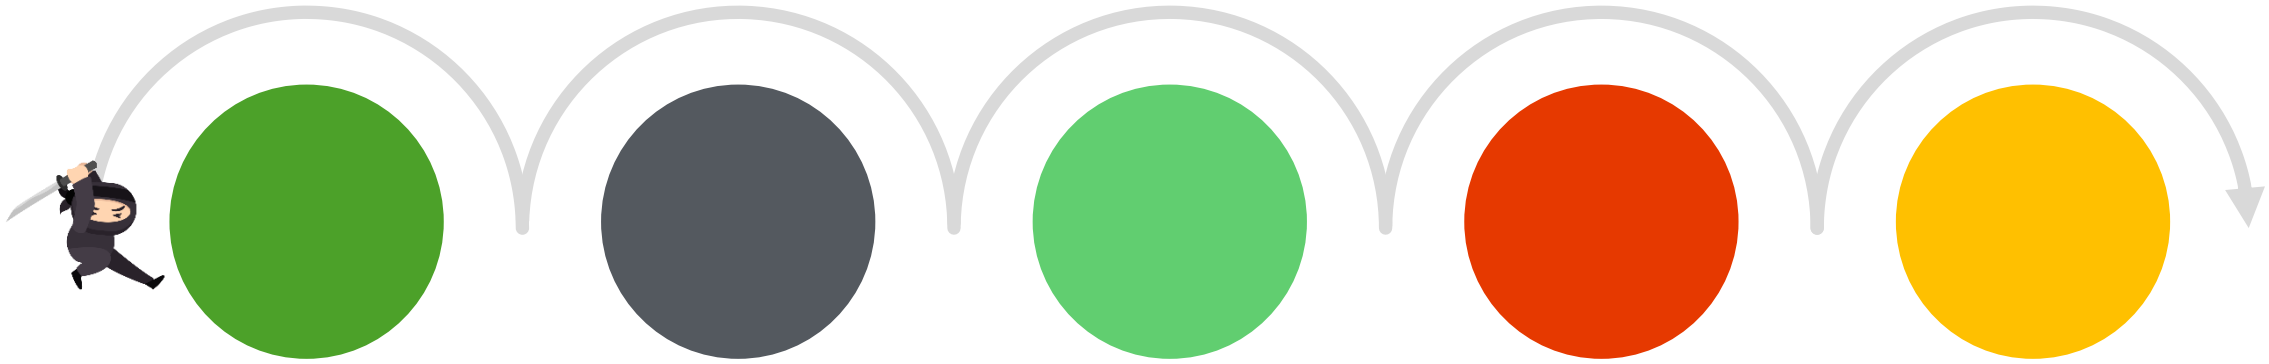
#WPNinjasGermany

Windows 365 Today

A look at Enterprise, Frontline and Reserve

Introducing Windows 365

https://www.wpninjas-germany.com/
#WPNinjasGermany



Personalised Cloud PC

Secure by Design

Always ready

Managed by Intune

Little to no management

Windows 365 Enterprise

https://www.wpninjas-germany.com/
#WPNinjasGermany

01

Dedicated, always-on Cloud PC

Each user gets a personal Cloud PC that is available 24/7.

02

Simplicity & Manageability

The Cloud PC is provisioned once and persists

03

Security

Full isolation of corporate data

04

Identity

Fully integration with Entra ID, so SSO, FIDO2 keys and compliance policies just work

05

Cost effective

Can be more cost effective than high-spec laptops and extend hardware refresh cycles

06

Compliance

Data residency and BYOK requirements are now met through Purview

Windows 365 Frontline

https://www.wpninjas-germany.com/
#WPNinjasGermany

01

Dedicated

Recommended for users who need part time access to their Cloud PC – shift workers

02

Or, Shared

Recommended for users who use Cloud PC for a short period of time and do not require data to be preserved

03

Different Licence Model

1 licence = up to 3 Cloud PCs

04

Same functionality as Enterprise

Security, Identity, Personalisation etc the same as Enterprise

05

Cost effective

Frontline lowers costs for licensing for concurrency rather than one-toone

06

Integration with Boot

Amazing integration with Windows 365 Link

Windows 365 Reserve

- **Short-term Cloud PC access**
- **Pre-configured and ready**
- **Non-extendable but renewable annually**
- **Use cases**
- **Intune integration**

Key Windows 365 Use cases

Uncover the personas of “Jon”

Introducing. Salesman Jon

https://www.wpninjas-germany.com/
#WPNinjasGermany

- Salesman Jon just needs to sell, sell, sell
- Salesman Jon only wants the best hardware, because he earns the big bucks
- However, due to current hardware shortages, Salesman Jon is stuck with an old Dell laptop
- IT need to give him a brand new device and are stuck, so they turn his Dell laptop into a Cloud PC using Windows 365 Boot

Introducing. Nurse Jon

https://www.wpninjas-germany.com/
#WPNinjasGermany

- Nurse Jon just needs to save lives. IT doesn’t matter to him
- Nurse Jon only needs to log on to a device to update his time sheet and check time sheets
- However, there is a lack of space and over 12 staff members in his hospital
- IT decide to install a couple of Windows 365 Link devices, and they use Windows 365 Frontline Shared within the department

Introducing. Coder Jon

https://www.wpninjas-germany.com/
#WPNinjasGermany

- Coder Jon just needs to write code, but after a night of gaming, he rage-quits and smashed up his highly spec'd laptop
- Coder Jon needs to meet deadlines that morning
- Coder Jon installs Windows App on his phone, connects his Bluetooth keyboard, and IT give him a Windows 365 Reserve licence
- Within an hour, Coder Jon gets a secure Cloud PC and manages to meet his deadline
- Coder Jon gets to use this for 10 days before he buys a new PC

Deploy Windows 365

https://www.wpninjas-germany.com/
#WPNinjasGermany

- Use my script:

https://github.com/jonjarvis87/ImplementWindows365

ImplementWindows365

A comprehensive PowerShell script to deploy and configure Windows 365 Cloud PC environments in Microsoft Azure, including Entra ID security groups, user settings policies, and provisioning policies.

Overview

`Deploy-Windows365.ps1` automates the complete setup of Windows 365 Cloud PC infrastructure for both **Enterprise** and **Frontline**. It handles:

- Entra ID security group creation/reuse for licensing, user, and admin roles (with new standardized naming)
- Cloud PC user settings policies with local admin configuration and persistence options for Frontline Shared
- Cloud PC provisioning policies with regional deployment (Enterprise assigned to groups; Frontline auto-assigned via license)
- Intelligent assignment preservation for Enterprise to avoid overwriting existing configurations

Prerequisites

Required Permissions

Your Microsoft Entra ID account must have the following Microsoft Graph API scopes:

- `User.ReadWrite.All` - For user management
- `Application.ReadWrite.All` - For application management
- `CloudPC.ReadWrite.All` - For Windows 365 Cloud PC management
- `Group.ReadWrite.All` - For Entra ID group management

The future of Windows 365

Uncover Windows 365 for Agents – live demo!

Windows 365 for Agents

https://www.wpninjas-germany.com/
#WPNinjasGermany

- Agentic work with Computer-Using Agents (CUAs)
- Consumption based pricing
- Cloud PC pools created within Copilot Studio or Opal
- Managed fully by Microsoft Intune
- Enterprise Grade Security & Compliance

Windows 365
for Agents

Windows 365 for Agents
